DAKOTA GREEN

Dakota Green is a beautiful and enduring dark green granite quarried in Northern Minnesota. Its deep green tones, enriched with subtle variations, bring a refined and distinctive character to any design. Perfect for memorials, mausoleums, columbariums, and civic projects, Dakota Green offers timeless beauty and lasting strength for generations to come.

DAKOTA GRANITE

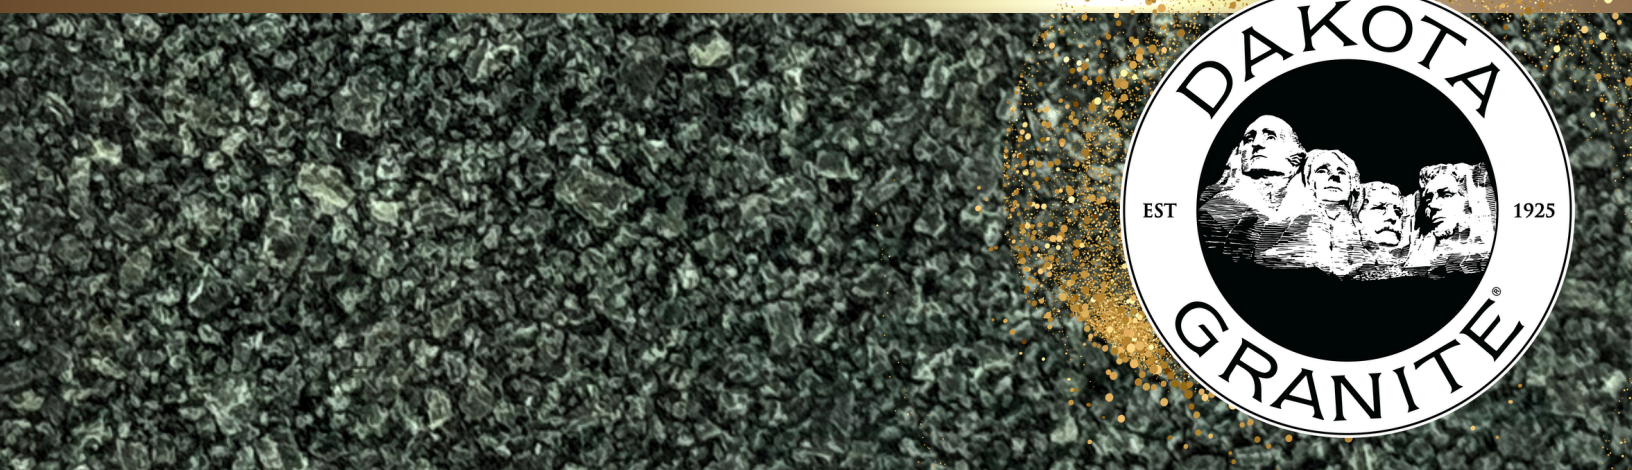

A CENTURY OF STONE. A NEW CHAPTER BEGINS.

For more than 100 years, Dakota Granite has supplied retailers with American stone they can count on. Today we introduce the next chapter in our story: **Dakota Green.**

Quarried from our newly opened, fully owned quarry, Dakota Green offers a rich dark green color with exceptional consistency and polish. Because we own the quarry, you get dependable availability, steady lead times, and freedom from the delays, tariffs, and uncertainty that come with imports.

Dakota Green. A new color for a new century.

QUARRIED SUSTAINABLY IN NORTHERN MINNESOTA
